

David Martlew FSGT

Nominate by (M. West FSGT and Brian McMillan FSGT)

David Martlew - is now blissfully retired after spending forty one years working as a Glass Technologist for Pilkington. Although his initial appointment was as an analytical chemist, David rapidly migrated and became involved in glass melting and furnace design. For the latter half of his time at Pilkington, he worked in the Models Laboratory with an excellent team whose role was trouble-shooting process problems involving fluid flow and heat transfer. Over the years he got involved with aspects of the History & Heritage of glass, which became an absorbing interest. In retirement he has been acting in an advisory role in a number of projects in this arena. David joined the Society in 1970 and for many years was involved in the running of the North West Section. He has been privileged to serve as President for two periods of office, to serve on Council and on the Board of Fellows for a number of years, and to be part of the team organising SGT conferences for the last two decades.

SOCIETY OF GLASS TECHNOLOGY

9 Churchill Way
Chapelton
Sheffield
S35 2PY

Continued Member	£28.00	£54.50

Fellows charge will increase to £20.00 above and beyond the rate, which usually applies according to status.

Marc Brew FSGT Vice President Nominee

Marc Brew gained an Honours Degree in Applied Chemistry from Trent Polytechnic in 1974 and joined the United Glass Research and Development Centre at St. Albans in the same year. Initially his work was essentially a laboratory based Glass Technical function but later included management of the Central Quality Assurance Laboratory before leaving in 1995.

In 1996 he gained a PGCE (F E) from Greenwich University. After teaching Chemistry and Materials Science at Further Education Colleges in Hertfordshire he then moved in 1998 to Sheffield and managed the Product Performance Laboratory at Glass Technology Services. He left GTS in 2005 and since then has worked independently as Brew Glass Technology and Training Ltd concentrating on the investigation of glass breakage of all types including working as an expert witness in both Civil and Criminal Cases.

Marc joined the Society in 1984 and was elected a Fellow in 1991. He has served on various Committees including Secretary of the London Section and Chairman of the Yorkshire Section gaining both the Redston Award and the Keeton Award respectively for his services. He has served several terms on both Council and the Board of Fellows and is currently the Recorder of The Board of Fellows.

Richard Hulme FSGT

Nominated by (Neil Simpson FSGT and Alan Reynolds FSGT Em.)

Richard Hulme started his career in the glass industry with Redfearn National Glass in October 1973 and joined the SGT in November 1976. He has subsequently held technical and operations positions with Appleby Calumite, Edinburgh Crystal, Waterstone Glass and for the past 17 years with Guardian Industries Corp. in Michigan, USA where he holds the post of Director of Hot End Operations.

Richard has served on the SGT Furnace, Chemical Analysis, Chemical Durability and Physical Properties Committees as well as on the Yorkshire Section Committee which awarded him the Denis Keeton Award in 1991.

Richard gained his HNC in chemistry from Barnsley Technical College. He was awarded a M.Sc. (Tech) and Ph.D. from the University of Sheffield for research works on decolourising and refining respectively. He is a Fellow of the SGT and IMMM.
